

# KLUVUDIV BLUCK

**Klvudiv Blvck, a rising DJ who describes herself as a shy introvert, has found her voice through music, transforming sound into soul-stirring journeys. Her story began after moving to Sweden, where the first forest raves sparked something raw and electric in her - a realization that music was the place she truly belonged.**

**From those early nights in the woods to sharing the stage with artists like Stella Bossi, Mha Iri, and David Löhlein, Klvudiv Blvck has already earned a wave of positive feedback- both from the artists she supported and from the crowd locked into her energy on the dancefloor.**

**Recently stepping into the DJ world, she is driven by an impeccable sense of style and a deep love for techno, especially the groovy and dark elements. Her sets are an exploration of melody and mood, blending the chaotic with the psychedelic for an immersive, unforgettable experience.**

**Quiet by nature but bold behind the decks, she carries a humble determination to grow, refine her craft, and prove herself with every set.**
